Vermont

WHY YOU SHOULD ATTEND?

This workshop remains the only platform worldwide for international, cross-disciplinary scientific exchange on the increasingly recognized difficulties encountered in the clinical care and design of studies to improve the care of persons aging with HIV.

The program is full of rich content and actionable insights for your clinical practice.

Enjoy mentoring opportunities, abstract-driven presentations, networking opportunities, and cutting-edge discussion with the world's leading experts on:

- Biological Aging
- Aging and Inflammation
- Neurocognitive Impairment in Aging People Living with HIV
- Emerging Complications with Aging
- Specialized Care for Aging People Living with HIV
